

Dear Mr. Kavalkó,

I would like to ask you that if you have any experiences about disappearing of adenoids by using the nozico ointment because I feel in that manner that if it was smaller. If it is possible I would not like to see a doctor. My maxillary sinus is constantly becoming clean. I am very glad to get acquainted with you and with your family products. I work as a pedicurist and I have helped lot of people with this ointment. I thank you for it with great gratitude.

I am Irma from Győr
